June 2nd, 2020 - Disability and types

What is a disability? A disability may be generally defined as the result of the interaction between persons with impairments and attitudinal and environmental barriers that hinder their full participation in society on an equal basis with others. Persons with disabilities include those who have long-term impairments that are substantial and that may be a physical or mental impairment which has a significant effect on their ability to do day-to-day activities.
